

What is RVA editor (PoolParty)?

PoolParty is commercial software which ARDC has contracted from Semantic Web Company (SWC). The ARDC licence enables users of the ARDC service to make full use of PoolParty for vocabulary creation and management, including support for editorial workflow for suggesting and approving concepts.

- For more detailed information about PoolParty, see the [SWC website](#) or the [PoolParty help portal](#).
- To create, manage and publish vocabularies, talk with your ARDC Outreach Officer about [registering for the service](#), or contact services@ardc.edu.au.
