

Release 17.1 (28 Oct 2015)

27 October 2015

Release 17.1 of ANDS Online Services is scheduled for implementation tomorrow, **28 October 2015** between 9:00am and 12:00pm AEDT.

The following services will experience degraded performance during implementation:

- Research Data Australia (RDA)
- Cite My Data (DOI) service
- Identify My Data (Handle) service
- Research Vocabularies Australia (RVA)
- ANDS Registry

Demo soft release will be implemented TODAY, 27 October between 3:00pm to 5:00pm AEDT.

This service release includes a number of RDA, RVA and ANDS Registry bug fixes and minor enhancements:

ANDS Vocabulary Service

- Implementation of a Demo environment for RVA portal
- Display enhancements to vocabulary portal (MyVocabs, Vocabulary search, Vocabulary CMS, Add Vocabulary, etc.) user interface such as:
 - Required field visual indicator
 - Display labels for version access point types
 - RVA will now prevent creation of vocabulary slug that already exists in the system
 - Added a link to the RVA service agreement from the 'Add Vocabulary' page
 - Introduction of 'Help' button in the RVA portal
 - 'Owner' field information included in the portal

Research Data Australia

- Fixed an issue with the Contributor Page's 'Subjects' link which was previously not working

ANDS Registry

- 'Preview in RDA' will now display maps properly for draft records
- Corrected display of search links in Theme CMS
- Removed the old Vocabulary Catalogue from the ANDS Registry menu

Other:

- Included alternative names in SOLR title index
