

Release 22.1 (9 February 2017)

7 February 2017

Service Release 22.1 of ANDS Online Services is scheduled for implementation on **Thursday, 9 February 2017 from 8:00am to 12:00pm AEDT**.

This service release implements a number of bug fixes to RDA, ANDS Registry and RVA.

Research Data Australia

- Grants & Projects: Display 'View all <xx> related researchers' for grants with more than 5 related parties
- RDA Duplicate Identifiers : Re-implement the merging of relationships for records with duplicate identifiers. This feature did not work since R19
- Theme Page: Enable multiple badges to be displayed on a view page in RDA
- RDA View Page: Fix bug where Schema.org itemType was set to 'Dataset' for all class types

Research Vocabularies Australia

- RVA imported PP projects: Update incorrect language values from 'English' to 'en' for affected PoolParty vocabularies
- Support multilingual vocabularies: For vocabularies with multiple languages, display 'English' as a preferred language in browse tree

ANDS Registry

- Harvester error log: Harvester should not throw 'Harvest error' if no record is found in the feed

During implementation, the following services are impacted:

- Research Data Australia (RDA)
- ANDS Collections Registry
- DOI (Cite My Data) service
- Handle (Identify My Data) service
- Research Vocabularies Australia (RVA)

Demo soft release is happening 8 February between 9:00am and 5:00pm AEDT.

Please schedule your activities accordingly. For any comments or questions, please email services@ands.org.au.
