

R25 Announcements/News

11 October 2017

Release 25 of ANDS Online Services is scheduled for implementation on **11 October 2017 from 8:00am to 12:00pm ADST**. This release implements a number of Research Data Australia, Research Vocabularies Australia and ANDS Registry bug fixes and enhancement requests received through the ANDS Service Desk.

Research Data Australia

- Correct the display title for party records with both 'superior' and 'subordinate' primary name parts
- Update the Temporal search filter behaviour to be inclusive
- Remove unnecessary javascript causing unexpected scroll behaviour
- Fix issue where access points for collections are being duplicated under the Go To Data Provider button on the view page
- Ensure RDA URLs with only the ID are resolved to the full URL

Research Vocabularies Australia

- Correctly display related entity URLs and identifiers in the related entity preview popout on the vocabulary view page
- Clean-up of existing Sesame repository on re-import of a vocabulary version

ANDS Registry

- Display a user-friendly version of the development changelog on the Online Services Homepage

During the implementation the following services are impacted:

Affected services

- Research Data Australia (RDA)
- RDA Registry
- Research Vocabularies Australia (RVA) portal

Unaffected services

- ANDS DOI service
- RVA editor (PoolParty)
- ANDS Handle service

A soft release on Demo is happening on 10 October. The following services will be intermittently unavailable during the day:

- Demo RDA
- Demo RVA

A separate email with the list of impact and requirements for each change will be sent out before the release. For any comments or questions, please email services@ands.org.au. Thank you.
