

Release 16 (24 Jun 2015)

15 June 2015

Release 16 of ANDS Online Services is scheduled for implementation on **24th June 2015**. This release implements enhancements to the ANDS Vocabulary Service and some minor bug fixes received through the ANDS Service Desk.

ANDS Vocabulary Service:

- Re-vamped vocabulary discovery portal (now using the same portal framework as RDA), including
 - Improved view page for vocabularies
 - Improved vocabulary metadata CMS for describing vocabularies within the portal
- Upgrade and integration of the existing vocabulary repository with vocabulary portal and vocabulary editing suite (forthcoming)

RDA minor improvements:

- Implementation of email notification to ANDS Service Desk when a Contributor Page is submitted for publication
- Fix the issue that allowed duplicate records (same key) to be added to the Registry
- Fix the link to related activities from the Contributor Page

Confirmation of previous urgent bug fixes:

- Implementation of 'openness' tagging/annotation tool in Research Data Australia
- Fixed the issue where old RDA URLs do not redirect properly in Research Data Australia
