

Add/Editor Resource Page

The Add/Edit Resource page allows you to create and modify the descriptive metadata associated with your IGSNs. The form is broken up into a number of sections.

Primary and mandatory metadata

The top half of the form contains fields to capture the mandatory and primary information about a sample.

An ORCID lookup widget has been provided to assist you in entering the curator's details. The system will automatically perform an ORCID search upon page load for the name of the logged-in user. Additional searches can be performed if this is not correct.

The screenshot shows a web form divided into two main sections: "Primary Information" and "Curation Details".

Primary Information:

- Owner:** A dropdown menu with "Private" selected.
- Resource Identifier:** Two input fields containing "20.500.11812/XXZT1" and "6P4RUs".
- Landing Page:** An input field with the URL "https://test.identifiers.ardc.edu.au/igsn-portal/view/20.500.11812/XXZT1".
- Registered Object Type:** A dropdown menu with "Physical sample" selected.
- Metadata Visibility:** A dropdown menu with "Publicly Visible" selected.
- Sample or Item Title:** An input field containing "Zircons from Fraser range amphibolite on epoxy SHRIMP mount samp". Below it is a red error message: "Provide a title for the sample or item".
- Sample or Item Type:** A dropdown menu with a red error message: "Select a sample or item type". Below it is a blue button: "Add a Sample or Item Type".
- Material Type:** A dropdown menu with a red error message: "Select a material type". Below it is a blue button: "Add a Material Type".

Curation Details:

- Curator:** An empty input field.
- ORCID Search:** A search box with a magnifying glass icon and a "Q" icon.
- Search Query:** An empty input field with a clear "x" icon.
- Search Results:** A list of names: Ryan Sullivan, JULIA MARTIN, Tom Honeyman, Liz Stokes, Siobhann McCafferty, Rhys Williams, Matthias Liffers, Brian Ballsun-Stanton, Andrew Treloar, and Natasha Simons.
- Enter the name of the resource curator:** A red error message above two input fields: "Curator Identifier Type" (empty) and "Curator Identifier Value" (containing "Curator Identifier Value").
- Curation Date:** An empty input field.
- Curation Location:** An input field containing "Curation Location".
- Curating Institution:** An input field containing "Curating Institution" with a red error message below it: "Curating Institution is required".
- Curation Institution URI:** An empty input field.

The 'Owner' Field is only displayed when creating a new IGSN. The field allows you to specify the owner of the IGSN record. The field is populated with a list of the organisational groups which you are a member of, plus a value of "Private".

"Private" is the default value and means that only you can modify the IGSN metadata once it has been minted. Selecting a group from the list assigns ownership of the IGSN record to that group, and any member of the group can modify the IGSN metadata once it has been minted.

If you would like to transfer ownership from/to a group after it has been minted please contact services@ardc.edu.au

Owner

Private

Additional metadata

The bottom half of the form is broken down into a series of tabs to capture further descriptive metadata e.g. spatial location and related resources.

Related Resource Title

Map widget

To use the map widget to enter a location:

- Move the map view to the desired location by using the zoom controls + and - and clicking and dragging the map to the desired location. If you have a mouse with a scroll wheel, this can be used to zoom in and out on the location.
- Select one of the tools below the zoom controls on the left-hand side of the map. You can hover your mouse over each tool to get a short description.
- Upon selecting a tool, instructions will be displayed with the mouse cursor to assist you in drawing your geometry.

Field help

A '?' icon is shown next to the title of each field. Click this icon to access contextual help.

Metadata Visibility

Publicly Visible

Short title or description of the sample, e.g. Zircons from fraser range amphibolite on epoxy SHRIMP mount sample number 175423

Zircons from fraser range amphibolite on epoxy SHRIMP mount sample number 175423

Provide a title for the sample or item

Errors

Mandatory fields and fields which fail validation will be displayed with a red border and an associated validation message

Sample or Item Title

Zircons from fraser range amphibolite on epoxy SHRIMP mount sample number 175423

Provide a title for the sample or item

Curation Date

 ✕

Enter a valid date in the YYYY-MM-DD format

If the 'Register' or 'Update' button is clicked before all validation issues have been resolved, a popout modal will be displayed detailing the remaining validation errors.

Validation Error ✕

Please fix the following validation errors

- curatorName : Enter the name of the resource curator
- curatingInstitution : Curating Institution is required
- resourceTitle : Provide a title for the sample or item
- resourceType : Select a sample or item type
- materialType : Select a material type
