

# R30 Announcement

26 September 2018

Release 30 of ANDS Online Services is scheduled for implementation on **4 December 2018, between 8am and 12pm AEDT**. This release implements a number of enhancements to Research Data Australia (RDA), RDA Registry, and the DOI Service. Below is the list of all the changes planned for this release.

## Research Data Australia

- Ensure version is populated in citation if provided in citation Metadata
- Hide 'Also known as' label under the record title if an alternative name is empty or not used
- Fix the issue where nodes in relationship graph are duplicated when double-clicked
- Optimise relationship graph for better performance and reliability
- Promote visibility (in Search facet, Explore menu, Contributor page) and enhance display of collection type 'software' in RDA

## DOI Service

- Remove resolvable links on all test DOIs when listed and viewed under My DOIs

## RDA Registry

- Add service discovery workflow into Data Source Dashboard import options
- Enhance OAI-PMH transaction handling to ensure that the system does not run out of memory when generating large OAI sets

## Other Change

- Broken Link Tool: Update the link extraction process to ensure that the correct URLs are extracted and stored

During the implementation, the following services are impacted:

- Research Data Australia (RDA)
- RDA Registry
- DOI Service
- Research Vocabularies Australia (RVA) portal
- Handle Service
- IGSN Service

The following services are not impacted and will still be available during release implementation:

- RVA editor (PoolParty)
- DOI resolution
- Handle resolution

A soft release on Demo is happening on Monday, 3 December 2018. The following services will be intermittently unavailable during the day:

- Demo RDA
- Demo RVA
- Handle test service

Please schedule your activities accordingly. Feedback or comments should be sent to: [services@ardc.edu.au](mailto:services@ardc.edu.au). Thank you for your support.
