

Introduction to Contributor Pages

Research Data Australia's "Contributor Home Pages":

- is a feature that automatically creates a home page for each contributor of data records
- is automatically linked to all the collections, parties, activities, and services contributed by an organisation
- includes basic text about the organisation's content in Research Data Australia (RDA), which is automatically generated by the system
- can be embellished by the organisation's Data Source Administrators (DSAs) with richer text, a logo and images if desired

Below are examples of basic and embellished Contributor Pages.

The screenshot shows the top navigation bar of Research Data Australia with the logo, 'EXPLORE', 'ABOUT', and 'MYRDA LOGIN' links. A search bar is present with 'All Fields' and 'Search for Data' options, and a search button. Below the search bar, there are filters for 'Publicly accessible online' and links for 'Advanced Search' and 'Map Search'. The main content area features the AusStage logo and the title 'AusStage: Gateway to the Australian Performing Arts'. The 'Data Profile' section states that there is 1 data record in RDA covering 7 subjects areas including Drama, Theatre and Performance Studies, PERFORMING ARTS AND CREATIVE WRITING, and STUDIES IN CREATIVE ARTS AND WRITING, involving 0 groups. The 'Subjects Covered' section lists: Drama, Theatre And Performance Studies (2), Performing Arts And Creative Writing (2), Studies In Creative Arts And Writing (2), Aboriginal And Torres Strait Islander Performing Arts (1), Dance (1), Performance And Installation Art (1), and Visual Arts And Crafts (1). On the right, a 'Data' table shows 'Data (1)' and 'Grants and Projects (1)'. The 'Last 1 Data Records Added' section shows 'AusStage: Gateway to the Australian Performing Arts'.

Australian Catholic University (ACU) is a public not-for-profit university funded by the Australian Government and open to students and staff of all beliefs. The University offers Undergraduate and Postgraduate courses. In addition the University is committed to creating a specialised, growing and well-regarded research environment. In pursuing this goal, ACU is building research capacity in the areas, listed below.

- The first focus area is *Theology and Philosophy* as being central to the elucidation, development and expression of Catholic intellectual thought.
- The second focus area is *Health*, with a particular emphasis on the value of care, especially of the weak and vulnerable.
- The third focus area is *Education*, especially in support of the historic Mission of Catholic educational institutions and agencies in exercising an option for the poor and vulnerable.
- The final focus area is the *Common Good and Social Justice*. This multi-disciplinary focus extends throughout the University's teaching and research. It also grounds the development of the University's graduates, who learn to think critically, act ethically and put the good of humanity at the centre of their concerns.

University Key Result Areas

- *Research Culture & Focus* - The University will create and foster an organisational-wide research culture and focus its research in designated areas of speciality derived from the University's character and Mission.
- *Research Quality & Productivity* - The University will improve the quality and productivity of research outcomes.
- *Research Training* - The University will strengthen its research training environment.
- *Knowledge Transfer* - The University will promote public intellectual engagement and communicate the outcomes of research and knowledge transfer.
